STUDENT OPPORTUNITIES

University students from all over the world will compete virtually for US \$25,000 in prize money and a chance to apply for a professional internship opportunity as they identify solutions to one of today's most pressing issues - global energy poverty.

QUALIFYING DETAILS

Team members can be from different universities or countries. Bachelor's and graduate degree students from any major and of any year are eligible to compete in teams of 3 - 4 students; however, each team must have at least 2 participants pursuing a bachelor's degree.
